4.	Mechanism devised to ensure that the quality of Online programmes matches with the quality of relevant programmes in conventional mode (For Dual Mode HEIs)	The academic delivery structure follows a four- quadrant model that replicates a traditional learning environment. This includes faculty-recorded videos, reading materials, self-assessment quizzes, live sessions, and discussion forums for faculty to address student questions and promote peer interaction. Assessments consist of both summative and continuous components. The summative examination is worth 70 points, while continuous assessment accounts for 30 points. Long Answer Type Questions included in Continuous Assessments. Summative assessments are designed to evaluate all expected learning outcomes and comprise multiple- choice questions (MCQs), short-answer questions (SQs), and long-answer questions (LQs). For programming courses, students in computer applications have access to a web-based virtual programming environment.

MUJ online programmes are delivered to students through the Brightspace learning management system (LMS) which combines all the tools supporting a great teaching and learning experience for students and faculty. It combines a learning environment, e-portfolio, learning repository, video recorder virtual classroom, e textbook platform and mobile apps all bundled in one cloud-based platform.

The LMS keeps track of delivery of e-learning programmes, learners' engagement, assessment results, reporting and other related details in one centralised location and provides analytical tools that will help the faculty members to extract and use the relevant reports.

LMS allows a role-based application user registration and profiling along with personalised dashboard and status of the courses progress. User programs analytics is available per user per course. LMS provides APIs and LTI based on integration to third-party tools and applications as needed. The LMS allows course content creation using various supported formats such as documents, PDF, SCORM as part of usage of the application. Using release conditions, personalised learning facts can be created based on actions/grades. LMS supports group creation assigning mentors and supports peer-to-peer interaction plus allows for collaboration using virtual classrooms discussion forums instant messaging and emails. The quizzes and assignments are supported through 11 different

question types (True/False, MCQ, matching, short answers, written answers etc. both subjective and objective. It is accessible with the same rich user experience across various devices. The LMS adopts a privacy-by-design approach and code for the application is developed and tested following principles set out in the Open Web Application Security Project (OWASP) top ten framework to ensure the security of the platform.

The details of point wise compliance status of LMS to the assessment criteria mentioned in Annexure 9 of UGC Regulations is enclosed as Annexure 6.

6.2 Compliance status in respect of the Programme delivery

Part – IX: Grievance Redressal Mechanism

9.1 Compliance status of 'Grievance Redressal Mechanism' – As per Annexure - X of UGC (ODL Programmes and Online Programmes) Regulations, 2020

HEI shall mention the mechanism put into place along with brief details of grievances received and actions taken thereof. Also mention that how the learners have been made aware about this mechanism.

University has a Grievance Redressal Committee. A link titled 'Grievance Handling Mechanism' is available on the homepage of University website for creating awareness amongst the stakeholders The link provides an online facility for submitting grievances and track their status. The Grievance Redressal policy is published on the portal so that learners can read and refer to the

policy. Once the grievance is received, the authorities involved in the grievance redressal process treat and investigate the facts impartially and address the grievances in a timely manner so as to lessen interruption in learning process of the learner. The online software application operates and maintains further proper communication and escalation mechanism. The University makes sure to maintain the confidentiality of the complainant as far as possible. The learner is informed of the status in relation to his or her queries or grievance on priority.

Part – X: Innovative and Best Practices

10.1 Innovations introduced during academic year

Academic Content Design:

The Academic delivery pattern follows a 4-quadrant approach which comprises e-tutorial, e-content, Discussion board, and assessment.

Curated links:

In addition to the e-tutorial, and e-content, the curated links are also available in the form of videos, PDFs,

websites, simulations etc. While curating the content, we make sure to customize it accordingly for the students. In this context, additional explanations on what students should focus on, in learning activities are designed related to the curated content. To widen their learning horizon, the students can access the curated links which are available on the LMS.

Case Studies:

To give a more practical approach, case studies are used as a teaching tool to show the application of theory or concepts to real situations. The case studies are provided in the e-content to prompt the learners to understand the practical implications of the topic, preparing them for analyzing a real case. For a better understanding, specific guidance, and facts to understand the case are provided. This helps them to understand the learning objective or the topic in the e-Learning course. Thus, the students are actively engaged in figuring out the principles by abstracting from the examples which develops their Problemsolving capacity.

Lesson plans: The learning portal offers detailed lesson plans that include learning objectives, self-study materials (e-content and e-tutorials), topics covered during live sessions, and post-session activities for further engagement.

10.2 Best Practices of the HEI

The Centre for Distance and Online Education follows several best practices to ensure a smooth and enriching educational experience for its students. These practices are designed to support students throughout their learning journey, from admission to course completion. Here are the key practices:

- 1. **Online Student Admission Journey**: The entire process of student admission is conducted online, ensuring convenience and accessibility.
- 1 **Multi-verification Process**: A thorough multi-verification process is followed before granting admission to maintain academic integrity and authenticity.
- 2 **University Email ID**: Every admitted student is provided with a university email ID for official communication and access to various university services.
- 3 **Single Sign-On Support**: The student portal, learning portal, and electronic library system are integrated with single sign-on, making it easier for students to access all resources with one set of credentials.
- 4 Access to Coursera: Students enrolled in select programs are given free access to Coursera for the duration of their program, enhancing their learning opportunities.

Name of HEI: Manipal University Jaipur

- 5 **Jump Start Sessions**: Fortnightly Jump Start sessions are conducted to train students on using the Learning Management System (LMS) and Student Portal effectively.
- 6 **Orientation Sessions**: At the beginning of every semester, the Programme Coordinator conducts an orientation session to help students acclimate to their courses and the online learning environment.
- 7 **Guest Lectures and Expert Sessions**: Guest lectures and expert sessions are organized to complement academic delivery, especially for management and computer application courses.
- 8 Weekly Evaluations: Students provide weekly evaluations of course coordinators handling live sessions, ensuring continuous improvement and feedback.
- 9 Virtual Programming Environment: Computer Application students are provided with a virtual programming environment to facilitate practical learning and coding practice.
- 10 Webinars and Industry Expert Talks: Webinars and session talks by industry experts are conducted to provide students with insights into current industry trends and practices.
- 11 Additional Learning Sessions: Beyond the scheduled sessions, additional learning sessions are arranged from 8:30 pm to 9:30 pm on Saturdays and Sundays to accommodate learners' schedules.
- 12 **Comprehensive Lesson Plans**: The learning portal offers detailed lesson plans that include learning objectives, self-study materials (e-content and e-tutorials), topics covered during live sessions, and post-session activities for further engagement.

10.3 Details of Job Fairs conducted by the HEI

To prepare the learners for placement drives <u>https://www.onlinemanipal.com/placements</u> was brought in place for processing job opportunities for student placement in May 2023. The preparation process for job fairs at Manipal University Jaipur for Online learners begins with an **Orientation** phase, where students are familiarized with the placement process, including timelines and various stages involved. This phase includes an overview of the entire placement cycle and a detailed explanation of each stage. Following this, the **Assessments** phase involves evaluating students' preliminary skills to identify their strengths and areas for improvement. This is achieved through skill assessments and providing feedback. Next, the **Training** phase aims to enhance students' skills and prepare them for the job market. It includes skill enhancement workshops, resume-building sessions, and interview preparation through mock interviews. In the **Placement Registration** phase, interested students register on the university's dedicated placement portal, which allows them to receive timely notifications about job openings, apply for jobs, and track their applications. Finally, the **Placement Drives** phase connects students with potential

employers. The university organizes placement drives and job fairs, regularly posts job openings, and provides students with opportunities to apply for positions that align with their interests, career goals, and skills.

10.4 Success Stories of students of Online mode of the HEI

The Centre for Distance and Online Education at Manipal University Jaipur (MUJ) stands out for its commitment to experiential learning over mere theoretical instruction. This philosophy of "practicing rather than preaching" is a cornerstone of their educational approach, emphasizing hands-on experiences and real-world applications. The effectiveness of this approach is most evident in the stories shared by students themselves—individuals who have not only acquired knowledge but have also applied it to achieve personal and professional growth.

The success of MUJ's online programs is vividly illustrated through the words of the students who have thrived in this learning environment. Their testimonials and success stories serve as a testament to the quality of education provided by the Centre. These narratives highlight the enthusiasm and motivation students experience as they navigate their courses, the sense of accomplishment they feel as they progress, and the happiness that comes with achieving their educational and career goals.

By showcasing these success stories, MUJ demonstrates the tangible benefits of its online learning platform. These stories reveal how the university's focus on practical learning has empowered students to overcome challenges, enhance their skills, and ultimately reach their goals. The Centre for Distance and Online Education not only teaches but also fosters a supportive community where students are encouraged to share their achievements and inspire others on similar paths.

Here is a compilation of student success stories, each illustrating how online learning at MUJ has played a crucial

role in helping them achieve their ambitions and aspirations.
