1.	Quality maintained in the services provided to the learners	1. Student Support Services: Through the Student portal, the Learning Management System, the dedicated Student helpdesk, and other means, students are supported throughout their academic careers. Students can access course-specific learning resources, examine semester-level results, view the academic calendar, and access key announcements and updates by logging in to the student portal using their university email address. Students can access e-books and journals using the Learning Management System and e-Library thanks to the single sign-on feature that has been enabled for the student portal. Students get access to documents, their	Refer to Annexure II

		profile, and grade mark sheets. The advantages of the courses offered on Coursera and SWAYAM, where courses selected by faculty are matched to specific programmes and semesters, can be accessed by students. The students can obtain fee receipts and pay their fees online and get fee receipts. In case of any issue, the students can raise queries which are addressed by Mentors / Support team within defined SLAs. The access to portal is enabled until the learners complete their Program. The learning resources, i.e., e-content and e-tutorial pertaining to current semester and all previous semesters are made available to the learners throughout the program. 2. Students are provided access to course material, discussion forum and feedback to faculty. Students are supported with various modes of interaction with subject teachers and other learners which includes One-to-One (Mail and phone), One-to-Few (MS Teams, Zoom), One-to-Many

		(Discussion Forum, Live sessions, SMS and WhatsApp) 3. The content resources and interaction possibilities are accessible through a mobile app that was also created for the purpose and offers access to e-Content, e-Tutorials, participation in discussion forums, and access to quizzes. 4. A dedicated Course Mentor is assigned for every student (1:250) to guide and support the students in their academic journey. 5. A dedicated student helpdesk (+91-7996-660-444 and helpdesk@mujonline.edu.in) is available for all the students every day from 9:00 am to 7:00 pm. from Monday to Saturday and 9:00 am to 2:00 pm on Sunday. The student support desk assigns a ticket ID to each email and phone call they receive, which is tracked and checked for resolution. To guarantee that email enquiries are resolved within the SLAs, an escalation matrix is in place. Students send over 1500 emails per month on average, and 95% of those

		emails are answered within 48 hours. On average, the student help desk receives 2000+ calls each month, with a connect rate of more than 90%. Every day, callbacks are scheduled for missed calls. 6. Live sessions take place as scheduled each week. 7. Schedules for Live Sessions and DB are communicated to students well in advance. 8. Discussion forum sessions offer opportunities for teacher-student contact, doubt clarification, and peer-to-peer interaction. 9. Exam preparatory sessions are also conducted to familiarize learners with the Exam platform, as well as the Question paper pattern. 10. Feedback is collected from students twice a semester-once during mid semester and once during the end of each semester action. Actions are implemented based upon feedback obtained from learners. The new-age tools like Mind Maps and Artifacts have been introduced for the upcoming batches in the academic year 2025-26. Live Discussion Board scheduled on weekdays for Semester 1, Batch 8 learners

		both for UG and PG programs.	
2.	Self-evaluative and reflective exercises undertaken for continual quality improvement in all the systems and processes of the Higher Educational Institution	Continuous quality improvement initiatives are implemented through brainstorming sessions between CDOE staff and teachers. To maintain learners' attention, live webinar sessions incorporated quizzes and polls, which are now standard procedures. Qualifying standards are met, and the admission approval process is rigorous. Assessments are designed to examine all levels of Bloom's Taxonomy. The QPs are assessed in relation to these criteria prior to being given to learners. By gathering information from the LMS and offering students customized advice, a dedicated team of course mentors monitor students' academic progress.	Refer to Annexure II
3.	Contribution in the identification of the key areas in which Higher Educational Institution should maintain quality	Through instructor-led sessions and recorded lectures, online programmes assist students in understanding the ideas and gaining	Refer to Annexure II

		additional information relevant to their studies. The lectures are regularly recorded by the faculty members in a nicely furnished studio for this purpose. To provide additional advantages of online learning by offering synchronous and asynchronous interactive video sessions led by teachers. For students to communicate with peers and teachers, mobile-compatible digital learning materials and discussion platforms have been made available.	
4.	Mechanism devised to ensure that the quality of Online programmes matches with the quality of relevant programmes in conventional mode (For Dual Mode HEIs)	A four-quadrant structure that resembles a typical learning environment is used in academic delivery patterns. These forms include videos that have been prepared by the faculty, reading lists, self-assessment exams, live sessions, and discussion boards where the faculty can respond to enquiries from students and promote learning among peers. Assessment is done by summative and continual assessment. The summative examination carries 70 points, while the continuous assessment carries 30. Long Answer Type Questions can be found in	Refer to Annexure II

		Continuous Assessment. Summative assessments are intended to examine all of the anticipated learning outcomes and include multiple-choice questions (MCQs), short answer questions (SQs), and long answer questions (LQs). For programming classes, computer applications students have access to a web-based virtual programming environment.	
5.	Mechanisms devised for interaction with and obtaining feedback from all stakeholders namely, learners, teachers, staff, parents, society, employers, and Government for quality improvement.	Learners' inputs are collected at the end of every Live Class session through feedback link. Additionally, feedback is obtained on the quality of support provided to students about both academic and non-academic matters. Students might choose to reopen a tickets if they are unhappy with the response they receive. Two surveys are sent out in addition to the Live Class Session feedback to obtain student opinions at the mid- and end-of-semester intervals.	Refer to Annexure II

6.	Measures suggested to the authorities of Higher Educational Institution for qualitative improvement	The following were suggestions CDOE had made to the HEI authorities: 1. Mobile Application named Pulse to promote anytime, everywhere learning and to receive latest University notifications. 2. Giving online students free access to Coursera and the electronic library 3. Regular external audits and internal audits of various processes in accordance with UGC standards	Refer to Annexure II
7.	Implementation of its recommendations through periodic reviews	The HEI authorities responded favourably to CDOE's proposals, and plans for their implementation have been created. As a result, mobile learning apps have been developed, giving users access to Coursera, an e-library, Internal Audit, and other resources.	Refer to Annexure II
8.	Workshops/ seminars/ symposium organized on quality related themes, ensure participation of all stakeholders, and disseminate the reports of such activities among all the stakeholders in Higher Educational Institution.	Mr Dinesh Sabnani, Senior Project Manager, Microsoft, Mr Mohit Sharma, Senior Software Engineer, Uber, Mr Balaji Rajagopalan, Vice President, Capgemini and many others who have spoken electronically to kids & schools from various fields & walks of life. Faculty members wishing to participate in workshops and FDPs hosted by outside	Refer to Annexure II

		organisations are supported by the university.	
9.	Developed and collated best practices in all areas leading to quality enhancement in services to the learners and disseminate the same all concerned in Higher Educational Institution	Best Practices followed at the Centre for Distance and Online Education 1. The entire admissions and enrollment procedure for students is conducted online. 2. The university follows a three-stage verification process before awarding admittance. 3. All admitted students are given a university email address. 4. The student portal, learning portal, and electronic library system all support single sign-on. 5. Students are given free access to Coursera for the duration of the curriculum. 6. A presentation on the curriculum and academic delivery by the relevant programme coordinator Manipal University welcomes new students with a student orientation	Refer to Annexure II

		programme with university leadership and business professionals. Jaipur 7. Guest lectures and expert sessions assist academic delivery for management and practical courses for computer application degrees. 8. Weekly evaluations of the course organisers' live sessions by the students 9. Students are supplied with a virtual programming environment 10. Webinars, session talks conducted by Industry Experts	
10.	Collected, collated and disseminated accurate, complete and reliable statistics about the quality of the programme(s).	Data is regularly gathered and compared to assess the learners' graph of progress. The same data is reported in the Student Satisfaction Survey. Based on these reports, student mentors do mentoring, tailoring the assistance to each learner.	Refer to Annexure II
11.	Measures taken to ensure that Programme Project Report for each programme is according to the norms and guidelines prescribed by the Commission and wherever necessary by the appropriate regulatory authority having control over the programme	Programme Project Report (PPR) for every programme is prepared by the concerned Faculty in accordance with the guidelines provided by UGC regulations and CIQA ensures compliance for the same.	Refer to Annexure II

12.	Mechanism to ensure the proper implementation of Programme Project Reports	The PPR is considered by all as their source material for anything related to their respective process of the programs like admission, syllabus, credits, eligibility criteria, assessment and exam duration etc. The PPR of all the programs is uploaded on the website for access to all the stakeholders.	Refer to Annexure II
13.	Maintenance of record of Annual Plans and Annual Reports of Higher Educational Institution, review them periodically and generate actionable reports.	The practice of consolidating an Annual Report has been ongoing since the inception of CDOE and is being made every year highlighting the major achievements, feedback reports, various activities carried out, student admissions & examinations etc and submitted to University Board of Management.	Refer to Annexure II
14.	Inputs provided to the Higher Educational Institution for restructuring of programmes in order to make them relevant to the job market.	The curriculum was created in 2024 keeping in mind the demands of the market. Syllabus restructuring was carried out exclusively for the management and computer application programs applicable for PG and UG of Batch 8, Semester 1, to better align them with current industry standards.	Refer to Annexure II

15.	Facilitated system based research on ways of creating learner centric environment and to bring about qualitative change in the entire system.	CDOE offers a supportive environment that encourages students to gain as much real-world experience, exposure, and information as possible. There are several ways to accomplish this, including: The LMS is made to enable students to learn at their own rate, on their own schedule, and in their own location. The materials made available take into account the learners' various learning preferences, including kinesthetic, audio-visual, reading materials. Course mentors offer advice to students as they progress through their academic careers. Through guest lectures given by professionals in the field, students are made aware of the most recent technological developments.	Refer to Annexure II
16.	Steps taken as a nodal coordinating unit for seeking assessment and accreditation from a designated body for accreditation such as NAAC etc.	Not Applicable	
17.	Measures adopted to ensure internalisation and institutionalisation of quality enhancement practices through periodic accreditation and audit	Every process is peer-reviewed and Internal audit is in place to ensure the same.	Refer to Annexure II

18.	Steps taken to coordinate between Higher Educational Institution and the Commission for various quality related initiatives or guidelines	University adheres to the guidelines which are published/released by the Commission from time to time. CDOE organizes various training/status update sessions for the internal stakeholders to understand the requirements and ensure that the various quality related initiatives in all major functional areas are implemented.	Refer to Annexure II
19.	Information obtained from other Higher Educational Institutions on various quality benchmarks or parameters and best practices.	We compare our process with institutions like IGNOU and implement some of the best practices followed by them. Eg: Process Navigation videos	Refer to Annexure II
20.	Recorded activities undertaken on quality assurance in the form of an annual report of Centre for Internal Quality Assurance.	CIQA year report is prepared and submitted to UGC.	Refer to Annexure II
21.	(a) Submitted Annual Reports to the Statutory Authorities or Bodies of the Higher Educational Institution about its activities at the end of each academic session.	CIQA Report	Refer to Annexure II
	(b) Submitted a copy of report in the format as specified by the Commission, duly approved by the statutory authorities of the Higher Educational Institution annually to the Commission.	CIQA Report	

22.	Overseen the functioning of Centre for Internal Quality Assurance and approve the reports generated by Centre for Internal Quality Assurance on the effectiveness of quality assurance systems and processes	All the reports and minutes of CIQA are placed with Academic Council & Board of Management. (Submitted for Approval)	Refer to Annexure II
23.	Facilitated adoption of instructional design requirements as per the philosophy of the Online learning decided by the statutory bodies of the HEI for its different academic programmes	E-Content is developed using guidelines of SLM development keeping in mind the online learners' requirements and by considering Bloom's Taxonomy. Instructional Design requirements are applied in every stage of Content Development. We have also ensured to maintain the optimum duration of videos provided under e-tutorial, keeping in mind the attention span of learners in general. Live sessions are held for each course in every program. The sessions include live interactions between learner and teacher, assessments in the form of Quizzes and peer-to-peer interactions. The live sessions are also recorded and uploaded on the LMS for future and continued access to the learners. Apart from the live interaction with the learners, a Discussion Board is also introduced wherein the learners can ask queries and discuss	Refer to Annexure II

MUJ online programs are delivered to students through the Brightspace learning management system (LMS) which combines all the tools supporting a great teaching and learning experience for students and faculty. It combines a learning environment, e-portfolio, learning repository, video recorder virtual classroom, e textbook platform and mobile apps all bundled in one cloud-based platform. The LMS keeps track of delivery of e-learning programs, learners' engagement, assessment results, reporting and other related details in one centralized location and provides analytical tools that will help the faculty members to extract and use the relevant reports.

LMS allows a role-based application user registration and profiling along with personalized dashboard and status of the courses progress. User programs analytics is available per course. LMS provides APIs and LTI based on integration to third-party tools and applications as needed. The LMS allows course content creation using various supported formats such as documents, PDF, SCORM as part of usage of the application. Using release conditions, personalized learning facts can be created based on actions/grades. LMS supports group creation assigning mentors and supports peer-to-peer interaction plus allows for collaboration using virtual classrooms discussion forums, instant messaging and emails. The quizzes and assignments are supported through 11 different question types (True/False, MCQ, matching, short answers, written answers etc. both subjective and objective. It is accessible with the same rich user experience across various devices. The LMS adopts a privacy-by-design approach and code for the application is developed and tested following principles set out in the Open Web Application Security Project (OWASP) top ten framework to ensure the security of the platform.

The details of point wise compliance status of LMS to the assessment criteria mentioned in Annexure 9 of UGC Regulations are enclosed as Annexure 6.

Part – IX: Grievance Redressal Mechanism

9.1 Compliance status of ‘Grievance Redressal Mechanism’ – As per Annexure - X of UGC (ODL Programmes and Online Programmes) Regulations, 2020 (Refer Annexure IX)

HEI shall mention the mechanism put into place along with brief details of grievances received and actions taken thereof. Also mention that how the learners have been made aware about this mechanism.

University has a Grievance Redressal Committee. A link titled ‘Grievance Handling Mechanism’ is available on the homepage of University website for creating awareness amongst the stakeholders. The link provides an online facility for submitting grievances and track their status.

The Grievance Redressal policy is published on the portal so that learners can read and refer to the policy. Once the grievance is received, the authorities involved in the grievance redressal process treat and investigate the facts impartially and address the grievances in a timely manner to lessen interruption in learning process of the learner. The online software application operates and maintains further proper communication and escalation mechanism. The University makes sure to maintain the confidentiality of the complainant as far as possible. The learner is informed of the status in relation to his or her queries or grievance on priority.

Part – X: Innovative and Best Practices**10.1 Innovations introduced during academic year****Academic Content Design:**

The academic content delivery follows a structured 4-quadrant approach, ensuring a holistic learning experience. The four components include E-Tutorials, which provide video lectures and multimedia content for conceptual clarity. E-Content consists of digitized reading materials, PDFs, presentations, and online textbooks. Discussion Boards serve as interactive platforms for peer-to-peer learning and faculty engagement. Assessments include quizzes, assignments, and self-evaluation tools for tracking progress. This structured approach ensures comprehensive learning and knowledge retention.

Curated Links for Expanded Learning

In addition to e-tutorials and e-content, curated learning resources are available in various formats. Videos include educational YouTube channels, TED Talks, and industry-expert lectures. PDFs & Articles provide access to research papers, case studies, and whitepapers. Websites & Simulations offer interactive tools and platforms for skill-based learning. To enhance the learning experience, students receive guidance on how to focus on relevant aspects of these resources. These curated materials are available on the LMS, broadening their learning horizons and providing an enriched educational experience.

Integration of Case Studies

To bridge theory and practice, case studies are embedded in the e-content. This methodology helps learners apply theoretical concepts to real-world scenarios. It fosters problem-solving skills through the analysis of practical situations. Moreover, it enables students to understand the industry applications of academic theories. By engaging in case study analysis, students develop critical thinking abilities and gain hands-on experience with real-life challenges.

Explainer Videos for Diverse Learning Needs

Recognizing different learning styles, explainer videos have been introduced to cater to a wide range of learners. These videos provide concise summaries of key concepts, making it easier for students to grasp complex topics. The use of animated and interactive storytelling techniques enhances retention and engagement. Additionally, step-by-step demonstrations of processes and problem-solving methods help learners understand difficult concepts more effectively.

Mind Maps & Artifacts for Conceptual Clarity

To facilitate structured learning, mind maps and artifacts have been introduced. Mind maps visually illustrate relationships between concepts, aiding in the organization and retention of information. Artifacts, including digital models, charts, and infographics, provide deeper insights into various topics. These tools simplify complex subjects and ensure better recall and comprehension, making learning more interactive and engaging.

External Learning Resources (Foreign University Courses & SWAYAM Links)

To provide global perspectives and diversified knowledge, students can access various online courses from prestigious institutions. Foreign University Courses include offerings from MIT OpenCourseWare, Harvard Online, Coursera, and EdX, allowing learners to study under world-renowned educators. Additionally, SWAYAM Courses, approved by UGC, offer self-paced learning opportunities across various disciplines. These external resources enhance academic learning and provide valuable certifications that boost professional credentials.

Innovations in academic content design ensure that students receive a comprehensive, interactive, and globally relevant learning experience. By leveraging digital tools, real-world applications, and external academic resources, the curriculum is designed to enhance engagement, critical thinking, and lifelong learning. These advancements empower students with the skills and knowledge needed to succeed in an ever-evolving academic and professional landscape.

10.3 Details of Job Fairs conducted by the HEI (Refer Annexure X)

MUJ Online successfully organized its first Virtual Job-Fair in December 2024, bringing together 1000+ enthusiastic learners and offering access to 2000+ vacancies across various industries. This strategic event featured 30+ reputed companies and showcased 50+ diverse job roles, making it a truly dynamic event.

The event was carefully planned and executed. It started with creative and timely learner engagement campaigns that built anticipation and enthusiasm amongst learners. Our team meticulously analysed job data, connected with HR professionals, and streamlined the entire process—from job postings and communications to forwarding applications to the respective hiring teams.

Learners had the opportunity to attend pre-placement talks, gain valuable insights from industry experts, and directly engage with recruiters. Carefully planned interview scheduling & ensuring smooth coordination between candidates and hiring managers. The culmination of this effort was the extension of 100+ job offers, a testament to the effectiveness and impact of this virtual initiative.

The success of this job fair stands as a strong example of collaborative planning, proactive communication, and learner-focused execution. It not only bridged the gap between talent and opportunity but also laid a solid foundation for future hiring drives.
